Power Quality Solutions Seminar

Meter-Treater's first annual Power Quality Solutions Seminar kicks off on Tuesday, May 16th with an Evening Reception and Registration. Classes will be held on Wednesday, May 17th and Thursday, May 18th beginning with a Continental Breakfast at 7:00 AM.

M-Ti has brought together speakers from all over the United States to present information on topics from their field of expertise in a small classroom setting. Continental Breakfast and Mid-Afternoon Snacks will be provided during Wednesday and Thursday's Classes.

Training Courses include: Grounding & Lightning Protection; Methods to Improve AC Power Quality; TVSS: Power, Telco, Data & Security; Harmonics & Power Factor Connections; Protecting the Network; and How to Perform a Site Survey. Plus, M-Ti will be offering Laboratory Demonstrations and hands-on product evaluations at their facility in Lake Park, Florida. A Panel Q&A Session will conclude the two-day event.

The complimentary Seminar is being held at the DoubleTree Hotel in Palm Beach Gardens, Florida. The DoubleTree Hotel in the Gardens is just minutes away from sun-drenched beaches, carefully-groomed golf courses and excellent shopping establishments. Group Room Rates are available for a limited time only.

If you are interested in attending this complimentary training seminar, please contact Meter-Treater at (800) 638-3788 or email sales@metertreater.com.

Space is limited so reserve your spot now!

CLT Series: Totally Redesigned Models

Meter-Treater, Inc. (M-Ti) of Lake Park Florida introduces the **New CLT Series Coaxial Line Treater!**

The **CLT Series** provides Bi-directional Transient Voltage Surge Suppression for Coaxial Applications. Units provide protection against

Transient Voltages that exceed nominal operating voltages. Devices can protect against surge current impulses up to 20kA/wire. Models are available to protect CATV, SATV, CCTV, Digital Modems Ethernet ThinNet (10 Base 2) and Arcnet.

The **CLT Series** installs in series with the coaxial lines and diverts harmful transient energies away from sensitive system components. Units operate over a wide range of temperatures and interface with standard coaxial protocols. Nominal data range is up to 100 Mbps and insertion losses are as low as -0.8dB @ 2.4 GHz.

Product Features include:

- ◆ UL Listed 497B Surge Protectors
- ◆ Multistage Hybrid or High Energy Gas Tube Designs
- ◆ Protection For CATV, SATV, CCTV, Ethernet and ArcNet
- ◆ Maximum 1 Circuit (plus Shield) Protection Per Unit
- ◆ Connector Types: BNC, TNC, F, N, etc. (Female-Female)
- ◆ 3 Foot (Male-Male) Cables Supplied With BNC and F Connect Units
- ◆ Both Bracket and DIN Rail Mounting Provided
- ◆ Ten Year (No Questions Asked) Warranty

Consult the factory for your specific application requirements (800) 638-3788. You may go to www.meterreater.com for additional product information or e-mail sales@metertreater.com.

Celebrating 20 Wonderful Years
