

Meter-Treater, Inc. is committed to environmental preservation through conservation practices.

We have designed specific Conservation Programs to help Utilities **GO GREEN** through product recycling for reuse and by decreasing their carbon footprint with responsible, earth conscience disposal of materials that can no longer be used.

Contact Meter-Treater to find out how you can further help the environment by signing up for one of Meter-Treater's Conservation Programs.

Conservation Programs

REUSE

Meter-Treater's **REUSE Program** allows Utilities to return Meter Base Surge Protectors to the field after a Warranty has been closed.

Meter Base Surge Protectors that have been returned to Meter-Treater for Warranty purposes are thoroughly tested for any abnormalities due to their time in the field.

Once the warranty process has been completed all Surge Protectors that still meet the original manufacturing specifications will be relabeled and returned to the Electric Utility for use.

GREEN

Meter-Treater's **GREEN Program** is designed to significantly decrease the carbon footprint by reducing the disposal volume upwards of 75%.

Meter-Treater accomplishes this by first indentifying the Meter Base Surge Protectors that can no longer be reused.

Meter-Treater will determine at this time which materials can be recycled and which materials must be permanently removed from service.

When disposal is required Meter-Treater will completely disassemble the Surge Protectors and grind the plastic housings in order to decrease the landfill impact by over 75%!

GREEN+

Meter-Treater's **GREEN+ Program** combines the benefits of both the **REUSE** and **GREEN** Programs.

The **GREEN+** Program allows Electric Utilities to purchase refurbished Meter Base Surge Protectors at a discounted price.

SAVE THE ENVIRONMENT + \$

Used Meter Base Surge Protectors that meet all of the original manufacturing specifications will be disassembled. Reusable materials will be installed in a **NEW** Meter Base housing with a **NEW** ground wire.

Refurbished Surge Protectors will be certified by Meter-Treater and will include a 5 Year Product Warranty with Consequential coverage.
